

Aya Essa Gouda Ahmed

Front-End Developer

ayaessagouda100@gmail.com • +201090073438

[Portfolio](#) • [GitHub](#) • [LinkedIn](#)

Profile

Front-End Developer skilled in React, Next.js, TypeScript, and modern CSS frameworks. Passionate about building responsive, user-friendly, and high-performance web applications. Experienced in API integration and creating real-world projects with a focus on clean code and modern UI/UX.

Skills

Technical skills: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS, Bootstrap, shadcn

State Management & APIs: Redux, React Query, React Hook Form, Zod, API Integration, Axios

Tools & Other: Git, GitHub, Postman, Vercel, Figma, Responsive Design, SEO Basics

Projects

My Portfolio • [Live Demo](#)

Created a responsive portfolio to showcase projects and contact information using Next.js and Tailwind CSS.

EzyShop – Modern E-Commerce Website • [Live Demo](#)

I built EzyShop, a full-featured e-commerce storefront using Next.js and TypeScript, featuring responsive design, secure payment integrations (Visa and Mastercard via Stripe in Test Mode), category-based browsing, cart functionality, and an optimized user experience across devices.

Chatify – A social media platform • [Live Demo](#)

Chatify is an interactive social media platform developed using React and Vite to deliver high performance and a smooth user experience. It allows users to create accounts, share posts, and engage with others through a modern, responsive interface.

Live Weather App – Real-time weather display application. • [Link](#)

A responsive web app built with HTML, CSS, and JavaScript that displays real-time weather data using a Weather API. Users can search for any city or enable automatic location detection to view temperature, humidity, wind speed, and sky status instantly through a clean, user-friendly interface.

Certificates

Front-End Development diploma from Route IT training center • [Link](#)

Completed an intensive training program covering HTML, CSS, JavaScript, React, Next.js, and TypeScript. Learned how to build responsive and interactive web applications, work with APIs, and manage projects using Git, GitHub, and Vercel. Also gained experience with modern tools and libraries like Tailwind CSS, SASS, shadcn/ui, Redux, jQuery, and NextAuth.
