+201090073438

Portfolio • GitHub • LinkedIn

Passionate Front-End Developer skilled in HTML, CSS, JavaScript, TypeScript, React, and Next.js. I've built real-world projects and love turning ideas into responsive, high-performance web apps. Always staying up to date with the latest technologies and applying them in my projects to deliver modern, professional, and future-ready solutions.

Technical Skills

Languages: HTML5, CSS3, JavaScript (ES6+), TypeScript

Frameworks & Libraries: React.js, Next.js, Tailwind CSS, Bootstrap

Tools: Git, GitHub, VS Code, Vercel, Figma

Other Skills: Responsive Design, API Integration, SEO Basics

Projects

My Portfolio • ↗

Created a responsive portfolio to showcase projects and contact information using Next.js and Tailwind CSS.

EzyShop – Modern E-Commerce Website • ↗

I built EzyShop, a full-featured e-commerce storefront using Next.js and TypeScript, featuring responsive design, secure payment integrations (Visa and Mastercard via Stripe in Test Mode), category-based browsing, cart functionality, and an optimized user experience across devices.

Live Weather App – Real-time weather display application. • ↗

A responsive web app built with HTML, CSS, and JavaScript that displays real-time weather data using a Weather API. Users can search for any city or enable automatic location detection to view temperature, humidity, wind speed, and sky status instantly through a clean, user-friendly interface.

Chatify – A social media platform

Chatify is an interactive social media platform developed using React and Vite to deliver high performance and a smooth user experience. It allows users to create accounts, share posts, and engage with others through a modern, responsive interface.

Certificates

Front-End Development diploma from Route IT training center

• ↗

Completed an intensive training program covering HTML, CSS, JavaScript, React, Next.js, and TypeScript. Learned how to build responsive and interactive web applications, work with APIs, and manage projects using Git, GitHub, and Vercel. Also gained experience with modern tools and libraries like Tailwind CSS, SASS, shadcn/ui, Redux, jQuery, and NextAuth.
